

Digger Visits New York

I am now visiting Art Rogers at Chatham Village Bears. It is spring time now in the United States and the Midwestern countryside is green and blooming. I have met many new friends at Chatham Village. We have been very busy visiting the Chatham Village art museum, the Chatham village zoo and local restaurants. I was lucky enough to travel to NYC with art & George, New York was overwhelming, times square was my

favorite, all the lights and activity, so many people from all over the world. I am on my way next to visit Peng Peng in Chicago! How exciting...

Luv Digger
